

# Every Time He Drinks He Thinks Of Her

Willie Nelson

Chorus.

Every time he drinks he thinks of her  
Every morning her memory fades (drains) away  
Livin' is easy now, it might just get worse  
'cause every time he drinks he thinks of her

(Verse 1)

And in the mornin' he wakes up with a smile  
And the road still has him hummin' every mile  
But the party life is dangerous when you've left your love behind  
Cause it hides in every bottle that you find

Chorus

(guitar break)

(Verse 2)

He thinks that he can live his life without her  
And leave her love as easy as it came  
But if he keeps on drinkin', then his mind will keep on thinkin'  
And his heart will die remembering her name

Chorus (2)

guitar to end
