Slow Burn

Tim Hicks

All dolled up
A little black dress
And her high heels on

Hot as hell
Girls just want to have fun

With her sweet Talkin
Jaw dropping
Show stopping ways
But stomping, shot calling
Straight up don't chase

Let it burn burn burn burn
let it burn burn burn for days

Keep you up to make you work
In the middle of the night
Yeah, don't know how she do it
But I know it feels right

Like whiskey going down
She's a head that gets you high
And she's gone before you even know it hurts

She's a slow slow slow burn
She's a slow slow slow burn

Takes her sweet sweet time
Gettin where she need to go
She won't ask twice
Cause she knows I can't say no

She's a live wire a good liar
Does then she gone
A midnighter lead lighter
Left handed smoke

Let it burn burn burn burn

Let it burn burn till it's gone

Keep you up to make you work
In the middle of the night
Yeah, don't know how she do it
But I know it feels right

Like whiskey going down
She's a head that gets you high
And she's gone before you even know it hurts

She's a slow slow slow burn
She's a slow slow slow burn

Let it burn burn burn for days
Let it burn burn burn for days
Let it all go up in flames

Let it burn burn burn for days
Yeah yeah
Let it burn burn burn for days
Let it burn burn burn for days
Let it all go up in flames
Yeah yeah

Keep you up to make you work
In the middle of the night
Yeah, don't know how she do it
But I know it feels right

Like whiskey going down
She's a head that gets you high
And she's gone before you even know it hurts

She's a slow slow slow burn
She's a slow slow slow burn
She's a slow slow slow burn
She's a slow slow slow burn
