

# Hope It's Too Late

**Michael Bolton**

I hope it's too late and you're already too far gone, oh  
'Cause my heart aches whenever I'm away too long, oh  
'Cause if I miss you even by a minute  
I'll lose my whole world and everything in it  
I never wanna say goodbyeBaby, 'cause I hope it's too late to change your mind  
'Cause I'm never changing mine  
And I just gotta say it's gotta be you until the end of time  
And I hope it's too lateTurn back, we can't turn back the hands of time, oh  
It was over the moment that your eyes met mine and now I find  
When I'm with you hours seem like minutes  
You're my whole world, everything that's in it  
Nobody's gonna say goodbyeBaby, 'cause I hope it's too late to change your mind  
'Cause I'm never changing mine  
And I just gotta say it's gotta be you until the end of time  
And I hope it's too lateTime keeps ticking away  
If I'm right here you'll never escape  
Baby, 'cause I hope it's too late  
I don't wanna say goodbyeBaby, 'cause I hope it's too late to change your mind  
'Cause I'm never changing mine  
And I just gotta say it's gotta be you until the end of time  
And I hope it's too late  
Tell me it's too late and you're already too far gone
