

# So Full

Jim Boggia

Well it came to me  
arriving at a blinding speed  
for how long.. who knows  
im trying hard to not let go

- i found.. my soul  
ive never had the world so full  
an o-ver flow  
ive never had the world so full

well it comes.. in dreams  
it comes in drugs n acohol  
some times.. it seems  
like reading writing on the wall

- i found my soul  
ive never had the world so full  
an o-ver flow  
ive never had the world so full  
so full....

now after all of this time  
im finding my way in the dark  
knowing the moment arrives  
if i wait... for the spark

now ive change the scheme  
but sum how i dont even care  
some times it seems  
like finding whats already there

- i found my soul  
ive never had the world so full  
an o-ver flow  
ive never had the world so full

I..found my soul

I..found my soul

now i found my soul  
im trying hard to not let go
