

Hot Like a Sauna

Tricky

Round the corner

Turn the corner, turn Hell is round the corner hot like a sauna

I know I hurt her when I tell her that I want her

And with this drama I act like Jeffrey Dahmer

I beat her then I eat her nigga's sweet

There's no one sweeter I think I lost my tweeter

To your pussycats do you call your pistols 'gats'? Don't sleep her love away

Don't let her run away

Don't sleep her love away

Don't let her Dream and I'm seein' it harmed a girl like Monica

Everyday be like Hanukkah and change my mind again

Hide off like to find a friend I call her 'Enemy'

She says I act like there's ten of me

A sketch for their clone a dog without a home But you want more when I was on tour

Told her you should write a lot

Now look how much time you got

Told you, shouldn't run a lot

Now look how much time you got Take life on the streets your own

Made by Grease beats pure dog

Running with the renegades of NY

Street Dog speak the true talk Wanna talk about crime? Yeah right

Stick ups- get in mind to realize, alright

Run the airtime, fuck the police it's startin' to get hyped

Niggas gettin' paranoid and void then imply Tetth's a bad boy Just gonna rap about kids that can't cope

Dogs get mad when niggas stand broke

With a phat rope, yo, what a joke

Shit, I had coke and fifty pound notes Puffed it for those niggas I know

Far as I know you're a freak if I bone like I go

Trix and Milo, I roll with niggas with big machines

Blank screens, video scenes blue, black and green Niggas with wigs scared the scam clean

And get the cream- know what I mean?

Diggin' the scene with the gasoline with enough magazines

Them nine to fives, big executives who ride the clock There'll be no crime from nine to five

There be no crime for none of us

Livin' to find those kinds of drugs with no undercovers

Those motherfuckers can't flop dogs In any form, this rough coughs quick

I'm sick going where the Jungle is clicking

In England the trans-Atlantic

In Harlem where demands don't quit Levitating and useless debating

In these devastating times, don't let her run away
While everybody's just doing drugs
And writing melodic rhymes, don't sleep her love away Trying to get one and not get into trouble
I might just be inclined, don't let her run away
We all got needs, we all do dirty deeds now
And then wanna smoke some weed, don't sleep her love away Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away Come with a bang bang
It's a hangman gettin' my prayer
My hands can slang bang actors
That have the will to gang slang That's the type of nigga that can't say
You don't go and forget the down times
And the walk while I was with the bad man
Many to fly right? Master plan Miracle flight like Pan-Am, man, damn
Sure as the echo 'fore that gonna pump the petrol
Niggas with escorts hide in the get-go
Now lay it in the ghetto, yeah y'all I could find life in a Paris metro
While I'm walkin' around slammin' ghettos in the real
Know the rapper with the black girls
Deliverin' travels with the Maxwell's gettin' paid off girls Rockwell's, high L's
Well as drop sales with Stock well
Street Dog with a Molotov cocktail
No no can't stop flowin' no, gettin' paid off girls Rockwell's, high L's
Well as drop sales with Stock well
Street Dog with a Molotov cocktail
No no can't stop flowin' no Levitating and useless debating
In these devastating times, don't let her run away
While everybody's just doing drugs
And writing melodic rhymes, don't sleep her love away Trying to get one and not get into trouble
I might just be inclined, don't let her run away
We all got needs, we all do dirty deeds
Now and then wanna smoke some weed, don't sleep her love away Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away
