Rise Up

Disciple

Rise up now, rise up now
Rise up now, we're 'bout to rise up
I will not sit silently by as you mock and curse my God
Stand against Him, you will be brought down
Here I come, I'm 'bout to rise up
With all of my people we're 'bout to rise up
Here we come now, we're 'bout to rise up
With all of my people we're 'bout to rise up
Here I come, I'm 'bout to rise up
With all of my people we're 'bout to rise up
Here we come now, we're 'bout to rise up
With all of my people we're 'bout to rise up now
You bark accusations that paralyze my brothers in fear
Only a small spark starts a unquenchable fire
Here I come, I'm 'bout to rise up
With all of my people we're 'bout to rise up
Here we come now, we're 'bout to rise up
With all of my people we're 'bout to rise up
Here I come, I'm 'bout to rise up
With all of my people we're 'bout to rise up
Here we come now, we're 'bout to rise up
With all of my people we're 'bout to rise up now
We're 'bout to rise up now
Rise up now, rise up now
Rise up now, we're 'bout to rise up
Here I come, I'm 'bout to rise up
With all of my people we're 'bout to rise up
Here we come now, we're 'bout to rise up
With all of my people we're 'bout to rise up now
We're 'bout to rise up now
We're 'bout to rise up
