

# You'll Only Break His Heart

[Jeremy Messersmith](#)

You hate the cold  
But love the winter  
Minnesota night, late November  
So take his hand but keep your distance  
Let the fallen snow hide your secrets You'll only break his heart  
You'll only break his heart  
You'll only break his heart  
You'll only break his heart It's nice enough, you crave adventures  
Where there once was fire, only embers  
And you don't want to play the villain  
What he doesn't know sure won't kill him You'll only break his heart  
You'll only break his heart  
You'll only break his heart  
You'll only break his heart He's out of touch, he's last year's fashion  
Lately when you kiss there's no passion  
But don't tell him you found a lover  
Lie awake at night, dream about her You'll only break his heart  
You'll only break his heart  
You'll only break his heart  
You'll only break his heart So pack your things while he's still sleeping  
He won't understand all your reasons  
Don't look back when you're leaving  
No, don't look back You'll only break his heart  
You'll only break his heart  
You'll only break his heart  
You'll only break his heart
