## Red Harvest

This song is called 'Red Harvest'  
Destroy, goHow many people can I hate in my mind  
With an intention of murder?  
Because the people fear me, the people bleeding  
Once they're conditioned, it's easy to provoke aggression  
This premonition is evilKilling begets more killing  
The blood lust begins  
Killing begets more killing  
The blood lust beginsWhat kind of visions can I build in my mind  
To harvest the hearts of the people?  
To create the fever you need a reason  
Once they're conditioned, it's easy to provoke aggression  
This premonition is evilKilling begets more killing  
The blood lust begins  
Killing begets more killing  
The blood lust beginsIt makes me feel alive in my eyes  
It makes all the pain subsideJust out after sunset  
I take a walk down the streets  
You know, try to clear my head  
And I feel like I gotta put my fist upon the wall  
Feel the cold concrete as it tears apart my controlTake it and feel it, you freak  
I feel I'm breaking down now  
Take it, feel it, you freak  
I feel I'm breaking down nowTake it, feel it, you freak  
I feel I'm breaking down now  
Take it, feel it, you freak  
I feel I'm breaking down nowTake it, feel it, you freak  
I feel I'm breaking down  
Take it, feel it, you freak  
I feel I'mTake it, feel it, you freak  
I feel I'm fucking up  
Take it, feel it, you freak  
I can't get out
