All Alone

Immature

Chorus
I'm all alone
Alone
In this whole world
With no one by my side
But you
New you're gone
Now you're goneEveryday, I hope and pray
You'll come back in my life
You were my friend
My confidant
I treasure every moment with you
Oh what am I supposed to do
My mother and my friend
Until the end
I never will forgetChorusThe smile you gave
The way we played
You gave me all my strength
When I think about life
I know you'll always lead my path
A part of you is still in me
Which means we're always together
Forever
You'll always be
You'll always be
A part of meChorusYou gave me your love
I treasured your love
I miss you
I gave you my love
Oh, oh, oh
I know that you love me
I know you will protect me
I love you so much
I don't want to be aloneChorus
