

Life Rolls On

Slightly Stoopid

Brother tell me to
Sing him songs
So I'm playin' my guitar
Man, life rolls on[unknown] midnight
Dusk to dawn
All I need is you to help me
You'll be strongKeep on singing,
Keep on playing
Let the music
Take you highKeep on prayin'
Night and day
Let 'em know
You will surviveGolden years
They don't seem so long
Looking back at yesterday
and now it's goneWhy this world
Don't get along
See the way that we are living
Know it's wrong[unknown]
Let's come together
We as oneSome don't take it
But we can make it
Let's find the ways
To carry onLet them take you high
Let the music take you high
Let it take you high [x4]
Take you high [x2]
