

# Everywhere (With You Man)

**Johnossi**

Follow me now  
Let's take a long way home  
Then start all over again on a brand new road  
With a wide open mind I've got it under control  
But time is slowing me down, colorful sound, I can make it growIt's been a long time coming,  
are you ready?  
I've been everywhere with you man  
Are you ready? Are you coming?  
This is the last timeGo ahead, be free, just act like meOut in the field we'll lose the sense of control  
But in the city lights we can recognize  
With a wide open mind we've got it under control  
But time is slowing us down, colorful sound, we can make it growIt's been a long time coming,  
Are you ready?  
I've been everywhere with you man  
Are you ready? Are you coming?  
This is the last timeGo ahead, be free, just act like me  
Go ahead, be free, just act like meWhen you die, you lived your delicate life  
Now you breathe again, when you're among your friends  
It seems so real to me nowIt's been a long time coming,  
Are you ready?  
I've been everywhere with you man  
Are you ready? Are you coming?  
This is the last time
