

Shangrila

Billy Idol

I'm bathing in warm liquid colour
Feel every cell in my body is music
Floating in hyper spacial sound
Visualizing the landscapes of my mind
I'm opening the door to inner space
I'm feeling the vibrasound We can live forever
We can live forever
Strike that gong
We can live forever
Our love can live forever
In Shangri-la Transform with inner guidance
To a place of peace and paradise
(Oh what a feeling)
Relax let your thoughts drift away
(Oh what a feeling)
Live in belief and harmony
(Chance of freedom) We can live forever
We can live forever
Stike that gong
We can live forever
Our love can live forever
In Shangri-la om
In Shangri-la om Access your new state of mind
Dedication discipline
Searching the sensory science
Has resulted in Shangri-la We can live forever
(Forever and ever and ever)
We can live forever
Our love could live forever
In Shangri-la
We can live forever
(Forever and ever and ever)
We can live forever
Strike that gong
We can live forever
In Shangri-la om A piece of a dream
The color of green
The color of healing
In Shangri-la

Color of love
In Shangri-la
I feel the sacred healing chants I feel the moment
Of my death
I feel the higher learning
I feel the realization of forgiveness
Compassion and loving kindness
Om
