Done It Anyway

Nonpoint

I would have dont it anyway
Were gonna free you all
And make you all one of us(bullshit)
Were gonna find everyone
And make them pay for this(bullshit)
Go ahead have some more
It wont hurt you(bullshit)
I know it hurt before
But i swear this time it wont
Even knowing what i know now
I would have dont it anyway
Black and blue and red from you still
I would have done it anyway
If you close your eyes
It will all go away(bullshit)
Keep your head up man

Tomarrows a better day(bullshit)
Bad things never happen
To good people(bullshit)
We treat everyone here
Like they were an equal
Even knowing what i know now
I would have dont it anyway
Black and blue and red from you still
I would have done it anyway
Well do better next time
If you give another chance(bullshit)
I understand you now
And i know exactly what you want(bullshit)
Try this for now
Youll like it just as much(bullshit)
Do everything we say
And we wont leave you fucked
