

Stickin in My Eye

NOFX

When I look 'round, I only see outta one eye
As the smoke surrounds my head, the sauna
I hear the voices, but I can't make out their words
Saying things, saying things that I got something sticking in my eye
Got something sticking in my eye
Got something sticking in my eye
I feel unusual from thinking
About the underground decay, God help me Kill beneath the camera, watch the world begin to cry
It's not from pity, it comes from
What's been sticking in my eye
Got something sticking in my eye
