# Acid Bubble

## Alice In Chains

You tried to kill me off
Surprised I remain
A scale tips impossible
Afraid of my own name
And I always paid attention to all the lines you crossed
Forgive this imperfection it shows and know
I am the child that lives and cries in a corner
Dies in a corner
Alone inside your mind
Intend obsolescence
Built into the system
I tried to shake it off

You can't remove this stain
A scale breaks impossible
Afraid we are the same
And you never paid attention to all the lines I crossed
Forgive this imperfection it shows and know
I am the child that lives and cries in a corner
Dies in a corner
Alone inside your mind
Hides in a corner
Dies in a corner
Alone inside your mind
Intend obsolescence
Built into the system
