Marathon

Kelis

Love is this marathon I'm running for you baby
And you don't know me yet but faith is all I have
See and I'm gonna win this race
Love is this marathon I'm running for you baby
And you don't know me yet but faith is all I have
See and I'm gonna win this race
Since I was a little girl
My eyes were fixed on you
I knew that one day we'd meet
And that you could set me free
Sure diamond rings are pretty things
But piece of mind can be all mine
All this burning love affair has kept
Me on my feet
Love is this marathon I'm running for you baby
And you don't know me yet but faith is all I have
See and I'm gonna win this race
Love is this marathon I'm running for you baby

And you don't know me yet but faith is all I have
See and I'm gonna win this race
Yesterday I had a glimpse of you
You looked me in the face
And just they other day you brushed right by me
I felt you reeling in my space
So tell me do you think of me
And can you see from the stars?
I swear I said I'd wait for you
But fate might change the start
Love is this marathon I'm running for you baby
And you don't know me yet but faith is all I have
See and I'm gonna win this race
Love is this marathon I'm running for you baby
And you don't know me yet but faith is all I have
See and I'm gonna win this race
