

# Strum

## Kaskade

Throw away all the things you hesitate  
Don't imagine all what you can forsake  
All I want is what you can make  
Don't destroy all the things at stake Try to think of a life at ease  
Taking all of the things you please Baby, I know just what you need  
Baby, I know just what you need  
Sugar, don't let this love ever cease  
Sugar, don't let this love ever cease Try to think of a life at ease  
Taking all of the things you please
