Kami Fonzo // I Really Don't

Kami Fonzo

Bust Back when i Talk, cuz i break laws of physics
im like your favourite 60's band but in high definition
im the nicest with this shit but there's no need to mention
scarecrow's what im reppin and thats with no recollection

Man, point me to a nigga, I bet im out rappin him
out classin em out matchin em,
young fonzo they outcasted him
now he got a voice so he came back blasting em
Lotta real world questions need answering
but you're more focused on who's asking em
and they focused on my girls when she walk past
imma have to print my album cover on her ass

Niggas try to sneak a feature
when do you wanna let the reaper meet ya
not with the games if you really wanna play
when i get in the zone , i'm a different creature

Yeah they're spittin fast but don't say shit
slow it all down still don't say shit
listen to my verse get conscious
astral project no need for a spaceship

trippy nigga high off the lucy and the K-pins
smoke another blunt watch it shapeshift
drop another banger then it takes off
drops like a bomb, genocide, young adolf

I go too hard can't go soft
I swing hard like a play golf
I cause a scene when i show up
I show out, when i show off

I'm the type that can't meet a girl without
her momma telling her to be careful
But all she ever wanna do is see the world
and she loving mine so be thankful
Mothafuckas think they can manage me,
but can't handle me , i'm a handful

same mothafuckas wanna talk to me
but they'd rather type and hit cancel

I hate it when niggas show up to fights
and try to scare me with their stances
but kami Fonzo don't panic
I hit the blunt and go manic
The situation turned tragic
When I spit a verse it's black magic,
some will even say it's satanic
I do rituals when i Plan it

I came to alter the planet
They too gullible for my standards
They still listening to their parents
and they wonder why we turn savage

Damn that nigga do damage,
the shit he do to live lavish
Put em at a disadvantage and scavenge em
right after causing havoc

I laugh at the reaction when you see us switch it up on you niggas
I'm a musical genius nigga, How did you figure?
This aint a coincidence, ive been keeping it diligent
what you're hearing is excellence that would never be the norm

Witness a GOD in his human like form
Ya face gets cold and ya bitch gets warm
Pockets in a drought, im'ma have to make it storm
Like a fucking hurricane coming to bust down your door

(Chorus)

Nigga, Just like that,
Im'ma have to bring it back
Im'ma have to slow it down to keep you Pussies on track
While i smoking a gram of wax
People always tend to ask
How you spitting all this crack and yet you stay so relaxed ?

I dont know
I dont know
I dont know
I dont know, i dont know, I dont know

I wish I knew, But i really dont

Oh yeah I forgot something

SCARECROWS!
