

# I've Got a Winner In You

[Don Williams](#)

I oughta know, what it's like to lose at love  
I've done it enough and I oughta know  
But then you came my way and tore away the fear of pain  
I won't lose again, this time I know I've got a winner in you  
No way I can lose  
A love I can hold on to  
I've got a winner in you I know how it feels when you try and try again  
And then you never win, I know how it feels  
Oh, but this time around, I've finally found what it's all about  
They write songs about the way that I feel I've got a winner in you  
No way I can lose  
A love I can hold on to  
I've got a winner in you
