

All to Myself

Guy Sebastian

I don't patronize, I realize
I'm losing and this is my real life
I'm half asleep and I'm wide awake
This habit is always so hard to break
I don't wanna be the bad guy
Been blaming myself and I think you know why
I'm killing time and times killing you
Every way that I do
Did you say please just follow me?
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like someone else
Please just follow me
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like someone else
I'm under the gun, you're like the only one
I just can't decide what I'm running from
This isn't what I wanted but
I can't keep my filthy fucking mouth shut
It's not enough, it's never enough
And I wish I could breathe without getting it stuck
Can't focus it but I try it over and over again
Did you say please just follow me?
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like someone else
Please just follow me
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like someone else
Please just follow me
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like
Did you say please just follow me?
I thought you wanted me 'cause I can't stay with someone else
I try and suck it up, I just keep fucking up
I want you all to myself

Did you say please just follow me?
I thought you wanted me 'cause I want you all to myself
I can try and suck it up, I just can't suck it up
Make me feel like someone else
