

# Weight of the World

## The Samples

With my hands I will build you castles in the sand  
And the promise of a land that it will keep you  
From the weight of the worldThey all ran away on our horses, leaving nothing to be found  
They dug our dreams up from the ground  
And took our forces from the weight of the world  
From the weight of the worldWas life too heavy, will you be free  
You may never get older, it no longer hangs over  
So let go of the weight of the world, the weight of the worldCan I please have one more dance with you  
Goodbye all I've held and loved and knewWith my hands I will build you castles in the sand  
And the promise of a land that it will keep you  
From the weight of the world, from the weight of the worldFrom the weight of the world, it's so far away  
From the weight of the world, it's so far away  
From the weight of the world, weight of the world
