Lucky

Controller

Oh how fortunate you are
Indeed unknowingly pure chance
Yeah you will definitely go far
I can tell at first glanceIt was just dumb luck don't be so slick about it.
Do you really think that you're a good luck charm? (x2)It was just chance (x2)How does it feel your
Entitle to your extensive style
High up on your pedestal
So tell me now..... How you just got luckyDoesn't seem to bother you a bit
How everyone else sees your full of.....
That ship is sailing in.....It was just dumb luck don't be so slick about it.
Do you really think that you're a good luck charm? (x2)It your world was to cave.....would it be
worthwhile?High up on your pedestal
Looking down, oh so high.....
So tell me now.....How you just got lucky
So set in your ways
Looking like a disgrace...
How you just got lucky!Watching silently by, as they laugh cause their better than you
Where's your luck, you've lost control
Without your money, you can't be whole
Your life's a mess, since you lost it all
Thanks to pride, the mighty to fall
You sold your soul, to advance but now
You know it was only chance.....
That's right it was only chance
It was only chance
