

Wildstar (feat. Foxes)

Giorgio Moroder

I keep dancing in my dreams
Here away into your arms
Flying high like you wouldn't believe
Wishing on weightless heart I got carried away on an endless dream
Probably took you way too far
When the glitter falls into the light
I'll be dancing like a wildstar Ooh, ooh, ooh
Glitter falls into the light
And I'll be dancing like a wildstar Light up, light up, light up the sky
Light up, light up, light up the sky I keep dancing in my dreams
Here away into your arms
Flying high like you wouldn't believe
Wishing on weightless heart I got carried away on an endless dream
Probably took you way too far
When the glitter falls into the light
I'll be dancing like a wildstar Ooh, ooh, ooh
Glitter falls into the light
And I'll be dancing like a wildstar Light up, light up, light up the sky
Light up, light up, light up the sky (Dancing like a wildstar)
(Dancing like a wildstar)
(Dancing like a wildstar)
(Dancing like a wild, dancing like a wild)
(Dancing like a, dancing like a, dancing like a, dancing like a)
(Dancing, dancing, dancing, dancing, dancing) (Glitter falls into the light and I'll be dancing like a wildstar)
(Glitter falls into the light and I'll be dancing like a wildstar) Ooh, ooh, ooh
Glitter falls into the light
And I'll be dancing like a wildstar
Ooh, ooh, ooh
Glitter falls into the light
And I'll be dancing like a wildstar
Dancing like a wildstar
Dancing like a wildstar
Glitter falls into the light
And I'll be dancing like a wildstar
