

# Rock 'n' Roll Ride

## Jack Blades

Out with the old  
In with the new  
Left out in the cold  
What's a young man to do  
I'm gonna learn to play the guitar  
Start up a band  
Playing rock and roll music  
Gonna light up the land Hey its all right  
The sun is gonna shine on me  
Hey its all right  
Gotta long way to go  
And I know I'm gonna get there  
Rock and roll ride yeah  
Maybe you shoul know this  
I got a song in my soul  
Its a never quit addiction  
Yeah its outta control  
I know I need to feed the fire  
Every night every day  
And I don't care if you don't understand  
I'm gonna do it do it my way Hey its all right  
The sun is gonna shine on me  
I said Head down the highway  
Mama don't you worry bout me (Mama don't you worry bout me)  
Hey its all right  
The sun is gonna shine today  
Hey its all right  
Gotta long way to go and I know I'm gonna get there Rock and Roll ride yeah Hey its all right  
The sun is gonna shine on me  
I said hey its all right  
Its gonna make a man outta me  
Head down the highway  
The sun is gonna shine today  
I said hey its all right  
Got it all  
Here we go  
Well come on baby its a rock and roll ride What kind of ride? A rock and roll ride  
What kind of life? A rock and roll life  
What kind of road? A rock and roll road

What kind of high? A rock and roll high
