Metal Machine

U.D.O.

I have a phobia
A fear of the dark
Afraid to shoot strangers
The animal talksGuns scare me shitless
But love gun's my friendThe sentinel's coming
But is this the endRiding on this crazy train
I'm going paranoid
Watch me lose my mind
And break the lawI'm a metal machine
It's close to midnight and
He's barking at the moon
I'm a metal machine
The rainbow in the dark is shiningI'm only metal machine
It's close to midnight and
He's barking at the moon
I'm a metal machine
The kings of metal ride the skyIs this st. anger
The ultimate sin
Or have I really
A black knight withinThe gates of Babylon
Are open and wide
Shout at the devil
There's nowhere to hideFighting for the world to keep
The wild child in it's cage
Broke my metal heart
Against the wallI'm a metal machine
It's close to midnight and
He's barking at the moon
I'm only metal machine
the rainbow in the dark is shining
I'm a metal machine
It's close to midnight and
He's barking at the moon
Come touch my metal machine
The kings of metal ride the sky
