

I Wanna Be the One (feat. Gabriel Antonio)

Stevie B

Late at night, when Im all alone
I think of you and Im feeling strong
Im wishing you would just look my way
Let me be the one My heart is aching for that special girl
Now come on in and share my world
Someone to love and someone to hold
Let me be the one, I love you
I need you girl and I need you now
I get you looking at me somehow
The love I have is an open door, girl
Come on the air, lets begin
I love I wanna be the one youre givin your lovin
I wanna be the one youre kissin and huggin
I wanna be the one you dream of at night
Let me be the one I love you
I wanna be the one youre kissin and huggin
I wanna be the one youre givin your lovin
I wanna be your honey, sugar and spice
Let me be the one, I love you baby I dont believe it should take so long
To find someone I could call my own
Just come, girl and say youll fill my love
Its a burning love, my baby
My heart is aching for that special girl
Now come on in and share my worl(d)
Someone to love and someone to hold
Let me be the one, my baby
I need you girl and I need you now
I get you looking at me somehow, baby
The love I have is an open door, girl
Come on the air and lets begin
I love I wanna be the one youre givin your lovin
I wanna be the one youre kissin and huggin
I wanna be the one you dream of at night
Let me be the one I love you
I wanna be the one youre kissin and huggin
I wanna be the one youre givin your lovin
I wanna be your honey, sugar and spice
Let me be the one, I love you baby My
I need you girl and I need you now

I get you looking at me somehow, baby
The love I have is an open door, girl
Come on the in, lets begin
I loveI wanna be the one youre givin your lovin
I wanna be the one youre kissin and huggin
I wanna be the one you dream of at night
Let me be the one I love you
I wanna be the one youre kissin and huggin
I wanna be the one youre givin your lovin
I wanna be your honey, sugar and spice
Let me be the one, I love you
I wanna be the one youre givin your lovin
