

# Cadillac

## Makala

Mama, I need a ride, yeah  
Somewhere like that  
Would you mind?  
Would you mind? Sing  
I was on aisle 95 on my way to Mickey D's  
When the back lights I went flash  
That's when a sexy little thing with a curl, tongue ring  
Jumped out of a black Cadillac  
Now she had a hourglass figure, no sign of a man  
And all she said when she offered a ride was  
Hey baby listen, you can drive on one condition  
I'm drivin' to get inside  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you, babe  
Now when I jumped in that's when she begin  
Comin' and attackin' on me  
Then she stopped the car, told me to drive  
'Cause she had a little trick from me to see  
So I followed her directions to turn where she said  
Not worryin' 'bout where we supposed to be  
And as I got no signal, all I heard was the words  
And the hands and she said to me, see  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back

You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you, baby  
How far will then I risk it?  
Have you been there before?  
Come on now slow I'll take you  
And leave you thirst for more  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you  
She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you
