

Everyday I Die (Live 1980)

Gary Numan

The problems of need I need you
Obscene dreams in rusty beds
No one came here tonight
I pulled on me, I need to I un-stick pages and read
I look at pictures of you
I smell the lust in my hands
Everyday I die Her favorite trick was to suck me inside
Oh so very art nouveau completely false
Feelings of love I don't
No one knows, but that died years ago I un-stick pages and read
I look at pictures of you
I smell the lust in my hands
Everyday I die
