

# Homage

## Paul van Dyk

I'll drown you in kisses I know I miss so many magic memories  
When I'm away from you I miss your touch, I miss your voice  
I miss the way we unlock, the secrets through each other  
There's only you I could love forever(Chorus)  
That's why I'm so lonely in a crowd  
And all I think about is coming home to you  
It's the stuff of dreams, how we hunger for our time  
I could never get enough of your sweet love I know I miss so many magical moments  
When I'm away from you I miss your touch, I miss your voice  
I miss the way we unlock, the secrets through each other  
There's only you I could love forever[Chorus]I'll drown you in kisses
