Blondes

Everclear

You are a loser just like I was
You are a loser like the rest of your friends
You're a loser in the worst way
I think you're losing just to make upYeah, I've seen the light
All around your faceI see you dying in the highway
I see you climbing up the hill
I see your sunshine on your blond hair
I see you worshiping the thrillYeah, I've seen the light
All around your face
Yeah, I've seen the light
Shine in your eyesYeah, I've seen the light
Light from another place
Now I know its not real
Yes, I know it's not real
Yes, I know it's notYeah, I've seen the light
All around your face
Yeah, I've seen the light
Shine in your eyesYeah, I've seen the light
From another place
Now I know it's not real
