

You Were Meant for Me

[Donny Hathaway](#)

You were meant for me
No one else could come between this love, I know
'Cause I'll never let you go
You and me it seems
Never have a problem we can't overcome
'Cause you'll always be the one Never thought I'd be so happy
Loving you has made me feel so fine
I can see my friends turn green with envy
Every time I tell them, I'm so glad you're mine You were meant for me
No one else could come between this love, I know
'Cause I'll never let you go
You and me it seems
Never have a problem we can't overcome
'Cause you'll always be the one yeah Never did one thing to hurt me
You always understood my ways
If I could, I'll stay right here beside you
With your hand in mine, making love for days You were meant for me
No one else could come between this love, I know
'Cause I'll never let you go
You were meant for me
