Take Me Now (Stop Stop)

Cleopatra

Yeah, yeah
Take me now
Oh, yeah, ohYou, you telling me you want, for eternity my love
But you say you need some time to think
If I am the one, but your feelings are so strong
You know you want my lovin', babyYou're asking all these questions
Then makin' new suggestions
Do you want me or not?No need to think about it 'cause you know it's plain to see
You can never find another girl like me
Everything I got you know
No other girl has got, got, got, gotNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Stop fussing, baby, we can make it hot
If you just stop, stop, stop, stopIn the streets on the dance floor
When you're thinking of me
You're wondering if you and me
You and I, baby, we were meant to beWho could kiss you like I do, gonna hold you the way I do, ooh
No other's gonna make your dreams come true
You say, love can't be erased and it's written on your face
You need my warm embrace, yeahYou're asking all these questions
Then makin' new suggestions
Do you want me or not?No need to think about it 'cause you know it's plain to see
You can never find another girl like me
Everything I got you know
No other girl has got, got, got, gotNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Stop fussing, baby, we can make it hot
If you just stop, stop, stop, stopIn the streets, on the dance floor
When you're thinking of me
You're wondering if you and me
You and I, baby, we were meant to beNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Everything I got you know no other girl
(No need to think about it 'cause you know it's)You know it's true, huh, you know it's plain to see
You can never find a girl like me, huh
Stop fussing, baby, we can make it hot
Stop, stop, you don't even thinkYou're asking all these questions
Then makin' new suggestions
Do you want me or not?No need to think about it 'cause you know it's plain to see

You can never find another girl like me
Everything I got you know
No other girl has got, got, got, gotNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Stop fussing, baby, we can make it hot
If you just stop, stop, stop, stopNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Everything I got you know
No other girl has got, got, got, gotNo need to think about it 'cause you know it's plain to see
You can never find another girl like me
Stop fussing, baby, we can make it hot
If you just stop, stop, stop, stop
Stop fussing, baby, we can make it hot
If you just stop, stop, stop, stop
