Mission Motherland

Helloween

So far from our system we came here through space
To leave poisoned spheres for your race
Our knowledge we trade for the time shared on earth
To take and give for what it's worth
On our screens we've been shown your world
Plead for your welcome, you won't get hurt
Mission motherland another chance
With sunlit soil and air to breathe
Is there any place for us to live
To grow descendants to be free, to be free?
You gave us resources, you gave us advice
Deal with the unknown to get humanized
We've shown you dimensions and brought you on ways
You've never seen yesterday
Hand in hand we will march through time
So much more to research and find
Mission motherland, another chance
With sunlit soil and air to breathe
Is there any place for us to live
To grow descendants to be free, to be free?
When we hear these words
We've taken cold refuge
In freezers to keep us alive
What we didn't know?
Your central star called Sun
Sends lethal rays to earth
Say, "How many of us died
In the streams of light?"
Faceless bodies, morbid cries
Doomed our colonies
Wake us when you've healed the world
Save our souls
When will we stand as one again
And fulfill what we understand?
Mission motherland, another chance
With sunlit soil and air to breathe
Is there any place for us to live
To raise all planets to be free?
Mission motherland, another chance

With sunlit soil and air to breathe
Is there any place for us to live
To raise all planets to be free?
To be free
To be free
