## The Shadows

We both take the hardest punches  
And collect black eyes just to prove it  
Still we passed by just like strangers  
And we speak just like the closest enemies

Enemies

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far  
Somehow my words that are useless  
Still I pull my lip down to my fuckin' chest

Yeah, my jaw is

Tired from waiting to say the things that you should hear

You should hear

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far

After all, still the same

These empty promises, seem to never change  
There's a smile on my face and it's 2: 55 a.m.

And this cramp in my wrist

Puts me back asleep till it all comes around again

With a closed fist

With a closed fist

With a closed fist

With a closed fist

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far, woah
