Simple Mind Condition

Trouble

Thank you very much, my friend
For all the advice you gave
Haunted and lonely, am I the only one?
Put me one step closer to my grave
They only come while I'm in bed
What I think they really want
Is to have me dead
My, my, my simple mind condition
My, my, my simple mind condition
Right from the start, I misunderstood
Should have known
You couldn't make me see
Now it's your turn to bend over
Cause I'm going back to being me
They only come while I'm in bed
What I think they really want
Is to have me dead
My, my, my simple mind condition
My, my, my simple mind condition
Always try to keep in mind
It's what we see that makes us blind
Why does everything seem so far?
It's so you never know
How close you really are
They only come while I'm in bed
What I think they really want
Is to have me dead[repeat chorus]
