

# Simple Mind Condition

## Trouble

Thank you very much, my friend  
For all the advice you gave  
Haunted and lonely, am I the only one?  
Put me one step closer to my grave  
They only come while I'm in bed  
What I think they really want  
Is to have me dead  
My, my, my simple mind condition  
My, my, my simple mind condition  
Right from the start, I misunderstood  
Should have known  
You couldn't make me see  
Now it's your turn to bend over  
Cause I'm going back to being me  
They only come while I'm in bed  
What I think they really want  
Is to have me dead  
My, my, my simple mind condition  
My, my, my simple mind condition  
Always try to keep in mind  
It's what we see that makes us blind  
Why does everything seem so far?  
It's so you never know  
How close you really are  
They only come while I'm in bed  
What I think they really want  
Is to have me dead[repeat chorus]
