The All-Destroying

Goatwhore

Crumbling stone faces, dismantle this praise
Rubbing ash of conquest, across faces of warSelf imploding flame of birth
Scorn and hate risen from ashes
Diving the divisions of hell
Dare to go where evil has no shameRevolting the presence of question
Concealing this senseless bitter blood
A hope for this landscape of terror, for the demands of this retributionRaped soul of conformity
Let the blood flow from these wrists
Transparent emotion of rage, as flesh tears in the fall of hopeReap benefit of gratifying torture
Vast scape of crimson realms
Welcome this dread of unknowing
No higher vision shall curse my
Thoughts of devastation
Digested and forced
This carnivorous stateOf primitive killing
Unleash hell's wrathSwallowed in blood and fire
Assume the birth rite of murder
Great genesis of reprisal
Spreading great wings of warTaking the lives, of this resistance
To fuel the machine, with endless carnageProlong the expectation of faith in the jaws of fear
Satisfied in this excavation of the heavenly wombFed by flame, nourished by death
I'm eating the blood
Tearing meat with teeth and nails
The all-destroying
Devouring the hearts of the ancient ways
A machine for the will of Satan
Whose tongues bless in diabolic spite
