

Velvet Elvis (Demo)

Dry Cell

I'm changing everyday
Into someone else
Trying to get away
From my pain You fucked up
You blamed me
You lied
PAIN
From bringing me down all the time
PAIN
Just 'cause it breaks me sometimes
Say what you want 'cause it won't make a difference I am replacing
Indignity
Defacing
Simplicity
I kinda like the way you beat me
And bruise me
The way you abuse me I'm failing everyday
Reaching out for help
Trying to get away
From my pain You fucked up
You blamed me
You lied
PAIN
From bringing me down all the time
PAIN
Just 'cause it breaks me sometimes
Say what you want 'cause it won't make a difference I am replacing
Indignity
Defacing
Simplicity
I kinda like the way you beat me
And bruise me
Abuse me
It's your turn I am replacing
Indignity
Defacing
Simplicity
I kinda like the way you beat me
And bruise me

The way you abuse me
I feel betrayed by the sole disaster
I'm not going down alone again
It's all right
I'll recover
Now you'll never see my face again I am replacing
Indignity
Defacing
Simplicity
I kinda like the way you beat me
And bruise me
Abuse me
It's your turn I am replacing
Indignity
Defacing
Simplicity
I kinda like the way you beat me
And bruise me
The way you abuse me
