

# Fallacy Dominion

## Napalm Death

Redress effects of past and current discrimination  
Intention to promote access to education  
Equality, employment, public institutions  
Meekly lamenting racial group victimization  
Intent to destroy traditionalist opinion  
In whole or in part, this fallacy dominion  
Intent to destroy by reverse definition  
Intent to destroy  
Long, arcane sliding scale on the population  
Rubbishing preferential treatment accusations  
An accomplishment to live and learn  
In my opinion  
Intent to destroy traditionalist opinion  
In whole or in part, this fallacy dominion  
Intent to destroy by reverse definition  
Intent to destroy  
Ingrained affirmative action  
Dismays conservative factions  
Ingrained affirmative action  
Prevention is better than a cure  
However obvious or obscure  
Prevention is better than a cure  
However obvious or obscure  
Quick degradation  
At the root and inciting violence  
Encouraged prejudice towards ethnic appearance  
Oppose the hierarchical machine  
Oppose dominance  
Intent to destroy traditionalist opinion  
In whole or in part, this fallacy dominion  
Intent to destroy by reverse definition  
Intent to destroy  
Ingrained affirmative action  
Ingrained affirmative action  
Ingrained affirmative action  
Ingrained affirmative action  
Prevention is better than a cure  
However obvious or obscure  
Prevention is better than a cure  
However obvious or obscure  
Protest old punishments, free from harassment  
Fresh ideology breaks model society  
Burning resentment, departing conformity  
Inflicted confinement, created anxiety  
Ingrained affirmative action  
Ingrained affirmative action  
Ingrained affirmative action  
Ingrained affirmative action  
Prevention is better than a cure

However obvious or obscure  
Prevention is better than a cure  
However obvious or obscure
