

Beautiful

Nine Days

You're beautiful, just like Mary's son
You spin around me like the earth to the sun
And everything is a word I need
Because without it I'm just like a disease, slowly fading
Could it be that you want more than your place in the sun?
Could it be you've reached the end and you've only begun?
I will not waste my time here, I will not waste my life here
Waiting for you
You're beautiful unlike anyone
Like a whisper and a breeze you were gone
You're everything that the heart would sing
And now, without you I'm just like a disease, slowly fading
You were faded, overrated but you're beautiful this time
Could it be that you were more than your place in the sun?
Could it be you've reached the end and you've only begun?
I will not waste my time here
Could it be that you want more than your place in the sun?
Could it be you've reached the end and you've only begun?
I will not waste my time here, I will not waste my life here
Waiting for you
'Cuz you're faded, overrated 'cuz you're beautiful this time
You're so beautiful this time, yes you're beautiful this time
You're so beautiful, yeah, do da doo doo doo doo doo
Do da doo doo doo doo doo, do da doo doo doo doo doo
Do da doo doo doo doo doo
