

# Janeen

Jann Arden

I need to tell you something, I want to get this off of me  
This girl is out to hurt you and she is really nasty  
Janeen will poke your eyes out, Janeen will tear your heart apart I want to tell you something, I need to get the  
words out  
This girl is gonna get you and she will stop at nothing  
Janeen will sink her teeth in, so deeply into your skin  
Janeen will make you feel like dying Oh, she's in the movies  
Oh, she's on the screen  
Oh, she's like a famous person  
Oh, Janeen I saw her on the TV she was completely stupid  
Her hair was a disaster, her shirt was really putrid  
Janeen is nothing pretty, she looks like nothing really She has these awful glasses, she treats us all like assholes  
Janeen is so ungrateful, Janeen's a heartless bastard  
Janeen will make you feel like dying Oh, she's in the movies  
Oh, she's on the screen  
Oh, just like a famous person  
Oh, Janeen Janeen  
Janeen
