Dark Star

Dreadnaught

I traveled through time to see ya
Hoping to find you on the other side
Looking for something inside you
So hard to find the dark of night
All you need is something new
But you're too blind to follow through
Chasin' the dark star for you
Moving through black holes
To break through white nose on the radio
Satellites spinning out of control
'Cause I'm chasin' a dark star for you
I traveled through space to find you
And take you away from the other side
Hoping to find the right words
And break the silence
All you need is something true
But you're too blind to follow through
Chasin' the dark star for you
Moving through black holes
To break through white nose on the radio
Satellites spinning out of control
'Cause I'm chasin' a dark star for you
Chasin' the dark star for you
Moving through black holes
To break through white nose on the radio
Satellites spinning out of control
'Cause I'm chasin' a dark star
Chasin' the dark star for you
Moving through black holes
To break through white nose on the radio
Satellites spinning out of control
'Cause I'm chasin' a dark star for you
