Someday

Jon Secada

I don't now when it happened, baby
How you got in my heart
And it's strong but still impossible
For me to realize
If some day we can be
Everything I've always wanted
'Cause you're all that I see
In my dreams could I've been blind
To the true love you give
I know it's silly for me to think
You'll always be around
It's your smile that I'm so used to, baby
Makes me sure of what I've found

And someday we can be
Everything I've always wanted
'Cause you're all that I see
In my dreams could I've
Been blind to the true love you give
And someday we can be
Everything I've always wanted
'Cause you're all that I see
In my dreams could I've
Been blind to the true love you give
I don't know when it happened, baby
But you got in my heart
