Cherry Tree

Caleb Lovely

I have to leave
I spoke my peace
No more nights
Under the cherry tree
I made the call
I threw the words
You took the blame
You took it allCause I need you to believe me
And you need to know I'm deceiving
I can't be who you need me to be
No more nights under the cherry treeI'm a sinking ship
The dirt on my lips
The look in your eyes
You're losing your gripOh, you were wrapped around my finger
You've come untied
Cause I burned through your love
Like it fell from the sky
You gave and you gave
As I spent and I spent
And I destroyed all the life we had leftCause I need you toe believe me
And you need to know I'm deceiving
I can't be who you need me to be
And I need you to forget me
And you need to stop giving everything
Cause I can't be who you need me to be
No more nights under the cherry treeI will never ever find a treasure more beautiful than you
And I will wither away and remember how I gave it all to youOh, I need you to believe me
And you need to know I'm deceiving
I can't be who you need me to be
And I need you to forget me
And you need to stop giving everything
Cause I can't be who you need me to be
No more nights under the cherry tree
