

# Together Now, Very Minor (Radio Session)

## Game Theory

Become the agile ones with legal means  
The men who bring the message to Abilene  
Look-at-me togs boxed up at mom's on the floor  
The news came hard and has never been taken right  
Top-level-cleared and riding the satellite  
Girl, stretch your legs and find what besides me is new  
And writ the obit when you do  
He never ran out when the spirits were low  
A nice guy as minor celebrities go  
All right all together now, very minor I know  
The levee view reads like life as it used to be  
But coming now the only thought striking me  
Is take it in well  
As eyelids of evening come down  
Your beautiful longing world unwound  
He never ran out when the spirits were low  
A nice guy as minor celebrities go  
All right all together now, very minor I know  
And please don't pay attention to  
A thing I do or say  
It's a ploy to drag you out  
And take it all away  
All away, all away  
All away, all away  
All away, all away  
All away  
All away  
All away  
All away  
All away  
All away  
All away
