

Parasite

G. Love & Special Sauce

Horses getting wiser with age
They're in a rage
cause they realized they've been underpaid
They're gonna start talking soon
Along with the apes and the gray baboons
The birds eyeing you with stern regard
Mosquitoes driven mad by the lust for blood
Lose all precaution in this bloodied frenzy
Parasites they got no love for me
I swat them down before they come for me
Mosquitoes swarm many so many
And many many more have left this world
Swept away by my palm
Feed to the fish that swim in the pond
It's a parasite Watch your back
A parasite is no the attack
Watch your back
A parasite ain't gonna hold I back
Watch your back
A parasite is on the attack So what you want to say about
Critics and their critical minds
I just love the way they find the time to criticize
Yeah they don't do nothing themselves
They sit their fat ass on the motherfucking shelf They say that money is the root of all evil
Seems like there's no way to put out the hellfire
There ain't enough for all people
So stick em up babylon stick em up How many rivers do we have to cross(jasper) Before you realize you've
already paid the cost
Blood sucker mother suckers
Fucking up enough is enough
Every trip of politicians I shed a tear
Too many in the bucket of stolen music that I hear
Let me make it clear
Talking about the soul snatching
But they don't want to share
They just result to whip cracking
See I know everybody's gotta live bro
Give a little take a little is my motto
You see the doggie has it's fleas

But for the fleas he has no need
But the fleas don't give a damn
All they want to do is feed
If it wasn't for the dog, they would starve
They say a parasite ain't got a heart
It's a flea eat a dog world Watch your back
A parasite is on the attack
Watch your back
A parasite ain't gonna hold back
Watch your back
A parasite is on the attack And all the politicians say is blah blah blah
And all the critics have to say is blah blah blah
The judge and the jury say blah blah blah
They just freakin my mind with this blah blah blah The man running for the president say
What you want to hear
But when he gets elected he turns the other ear
The oldest game in the book put the one man down
Credibility is gone long gone
Yo the words were wrong
They don't hatch with the actions
Where are the leaders to get the
Motherfucking peoples reaction
Where are the real men to guide all the people
Bring us down to get wealthily for themselves
No that ain't the goal
The inner site of the inner mind
I'm busy walking the line
I got no time to put the other man down
While I'm making my rounds
I go from town to town
And bringing everybody up not down
I keep a smile on my face
And I praise amazing grace
And every day I tie my laces
So I don't trip, slip, fall, stumble, stagger
I ain't gonna get hit man
I'll stab you with this dagger
And if you try to get me down
I'm gonna get back up
That's why I gotta say you suck my blood
It's a parasite Watch your back
A parasite is on the attack
Watch your back
A parasite ain't gonna hold back
Watch your back

A parasite is on the attack And all the politicians say is blah blah blah
And al the critics have to say is blah blah blah
The judge and the jury say blah blah blah
They just freakin my mind with this blah blah blah My baby momma she is coming with blah blah blah
The police they be trippin' with blah blah blah
The radio they be playing that blah blah blah
They freaking my mind with that blah blah blah
