Itâ€™s not working, so stop fronting

English

-
Itâ€™s not working, so stop fronting
I know you want me, letâ€™s start talking

Hey I already know everything
So why are you hiding
Itâ€™s written all over your face that you like me
Hey why do you look away
I know everything

When I feel you looking at me
Youâ€™re always there (Hey Girl)
When I turn around
Even though I look a couple of times
Even though I pretend not to be surprised
I know why you always are around me

Hey I already know everything
So why are you hiding
Itâ€™s written all over your face that you like me
Hey why do you look away
I know everything

You thought that I wouldnâ€™t know that you liked me
That was cute of you (So Cute)
I want to pretend that I donâ€™t know
But I canâ€™t stand it anymore
I know everything come over here
Donâ€™t avoid me anymore

Hey I already know everything
So why are you hiding
Itâ€™s written all over your face that you like me
Hey why do you look away
I know everything

Now donâ€™t avoid me anymore and come with me
Look at me donâ€™t be so shy
Donâ€™t be scared even though Iâ€™m not good at this either
I think weâ€™ll be a hot couple

Letâ€™s make our first day today
I want to hold your hand and walk around
Weâ€™re wasting time what do you want to do
Until when are you going to run from me, huh?

Hey I already know everything
So why are you hiding
Itâ€™s written all over your face that you like me
Hey why do you look away
I know everything

Hey I already know everything
So why are you hiding
Itâ€™s written all over your face that you like me
Hey why do you look away
I know everything

Itâ€™s not working, so stop fronting
I know you want me, letâ€™s start talking
Itâ€™s not working, so stop fronting
I know you want me, letâ€™s start talking
