Curious

Alison Valentine

CuriousThere's something about you
That's pulling me in
And all my defenses
Are all wearing thin
So I move a bit closer
Wonder if you're real
I just brush your shoulder
I wanna know how you feelI'm curious for you, curious for you, curious for you, curious for you, I'm curious for you, curious for you, curious for you, I'm curiousLike an apparition
Or a ghost from a dream
Work of a magician
Got some tricks up your sleeve
You move like a mystery
From all I can tell
You've got a hold on me
I've fallen under your spellI'm curious for you, curious for you, curious for you, curious for you, curious for you, curious for you, curious for you, I'm curiousI'm curiousBaby ever since the day I saw you
I just cannot get my mind off of you
Baby ever since the day I saw you
I just cannot get my mind off of you,
I'm curiousI'm curious for you, curious for you, curious for you, curious for you, curious for you, curious for you, curious for you, I'm curiousI'm curious, curiousBaby ever since the day I saw you, I just cannot get my mind off of you,I'm curious
