

# The Music That We Hear

## Morcheeba

Sometimes I get up feeling good  
But greed gets me down  
I try to think about the highs  
The freedom we've found When the business in your life  
Don't sit with your soul  
And they treat you like a child  
They need to control The music that we make  
Will heal all our mistakes and lead us  
The music that we hear  
Is always standing near to feed us We're all gonna rise above  
All things that we lack  
Good vibrations that we make  
Will come bouncing back The music that we make  
Will heal all our mistakes and lead us  
The music that we hear  
Is always standing near to feed us The music that we make  
Will heal all our mistakes and lead us  
The music that we hear  
Is always standing near to feed us The music that we make  
Will heal all our mistakes and lead us  
The music that we hear  
Is always standing near to feed us
