With You Around (Acoustic)

Yellowcard

Do you remember when I said you where my only one
We were running underneath the California sun
Well now I look at you and you're still more than I can take
You're like a slow song starting to accelerate
And all my life I looked for you
For arms that I can fall intoAll I can think about is you and me driving with the Saves The Day record on
We were singing 'til until our voices were gone
And I was falling hard you were barely hanging on
And now I want to chase forever down
With you aroundYou are making movies in your head when you fall asleep
Havin' nightmares dreaming that I'm gonna leave
I know you've always been afraid of ending up alone
Somebody hurt you now you're waiting on a dial tone
But I'm right here so don't get blue
It's not just you, I need this tooAll I can think about is you and me driving with the Saves The Day record on
We were singing until our voices were gone
And I was falling hard you were barely hanging on
And now I want to chase forever down
With you aroundWe were running underneath the California sun
We were underneath the California sunAll I can think about is you and me driving with the Saves The Day record on
We were singing 'til our voices were gone
And I was falling hard you were barely hanging on
We put a record on, kept singing until our voices were gone
And I was falling hard you were barely hanging on
And now I want to chase forever down
We were riding underneath the California Sun
I just want to chase forever down
With you around
